## PROFESSIONAL SUMMARY

Dynamic Full-Stack Web Developer with a focus on the MERN stack and a quick grasp of new technologies. Specialized in building responsive, user-friendly frontend interfaces, while also experienced in developing efficient backend APIs using Python and FastAPI. Skilled in creating scalable web applications, seamless integrations, and clean, maintainable code. Strong problem-solving abilities and a collaborative mindset contribute to delivering high-quality, innovative solutions.

## EDUCATION

### Masai School

Full Stack Web Development

Jan 2025

### Rayat Bahra Institute of Engineering and Nano-Technology Hoshiarpur

Civil Engineering , B.tech

Jul 2017

## SKILLS

**Technical Skills:** fastapi, python, Express.js, Redux, Node.js, MongoDB, CSS3, HTML5, Responsive Web Design, Git, React, JavaScript

**Soft Skills:** Attention to Detail, Adaptability, Time Management, Teamwork, Problem Solving, Effective Communication

## EXPERIENCE

### MfilterIt | *Software Engineer in Research and Development*

Feb 2025 - Aug 2025

- Developed Intellplus Dashboard from inception to detect online fraud, manipulation, and emerging risk trends
- Implemented robust API integrations to enhance data flow and system interoperability
- Engineered responsive web applications to optimize user experience across devices
- Optimized application performance for scalability and efficiency in high-traffic environments

## PROJECTS

### Masai Movies | *JavaScript, Git, Responsive Web Design, HTML5, CSS3, RESTful APIs*

-  Deployed Link : <https://delicate-cucurucho-42501a.netlify.app/>
-  Github Repo : [https://github.com/Sahilz9/Salesforce-Sages\\_084](https://github.com/Sahilz9/Salesforce-Sages_084)
- Developed interactive and responsive user interfaces using HTML5, CSS3, and JavaScript to enhance movie exploration and booking experience.
- Implemented RESTful API calls (GET, POST, PUT, DELETE) to handle movie listings, user registration, profile updates, and booking management.
- Utilized mock APIs to simulate backend functionality, enabling efficient front-end development and testing without a live server.
- Integrated secure user authentication to ensure personalized experiences and data privacy for users.
- Collaborated using Git for version control, ensuring smooth teamwork and codebase management throughout the project.

### Dmart E-commerce Clone | *HTML5, CSS3, bootstrap, Responsive Web Design*

-  Deployed Link : <https://syntax-saadhana-2345.netlify.app/>
-  Github Repo : <https://github.com/Abdullaabdulazeez/Syntax-Saadhana-2345>
- Defined project scope, set clear objectives, and contributed to planning and timeline creation for a DMart-inspired supermarket web page.
- Collaborated with team members, assigned tasks, and ensured the availability of required tools and resources for smooth project execution.
- Implemented a responsive user interface using HTML5, CSS3, and Bootstrap, featuring a dynamic navbar with location dropdown, search, and cart functionality.
- Developed key components such as a rotating product carousel, visually appealing product cards with 'Add to Cart' options, and a popular categories section for enhanced user experience.
