WORK EXPERIENCE

Frontend Developer, *Vendosmart (ProqSmart)*

12/2025 – 03/2026 · Bengaluru

- Architected an enterprise B2B procurement platform using Next.js, React, and TypeScript in a Turborepo monorepo, designing modular packages for API clients, state management, and shared UI components.
- Built an end-to-end procurement workflow — RFQ management, supplier bid comparison with heatmap analysis, contract generation, and multi-level approval routing.
- Implemented real-time collaboration via WebSocket for live messaging and bid updates, integrated with Zustand for optimistic UI; developed a Mantine-based design system using Storybook.
- Engineered a secure dual-portal authentication system with Firebase, isolated storage contexts for buyer and supplier workflows, and an API proxy with automated JWT token injection.

Software Engineer, *mFilterIt*

02/2025 – 08/2025 · Noida

- Developed the Intellplus Dashboard from scratch using React.js to detect online fraud, manipulation, and emerging risk trends with robust API integrations.
- Engineered responsive, accessible web apps with Tailwind CSS, Bootstrap, and shadcn/ui, optimizing performance via lazy loading and code-splitting for high-traffic environments.
- Collaborated cross-functionally to align UI/UX with business goals, leveraging component-driven development to improve delivery speed and design consistency.
- Integrated multiple internal services and external data sources via robust API connections to enable seamless data flow and system interoperability across the dashboard.

EDUCATION

Full Stack Web Development | 12/2023 – 01/2025

Masai School

Bachelor of Technology in Civil Engineering | 08/2013 – 07/2017

Rayat Bahra Institute of Engineering and Nano-Technology, Hoshiarpur, Punjab

PROJECTS

Online E-Learning Platform [Live Demo](#) | [GitHub](#)

- Built a full-stack e-learning platform using React.js, Node.js, Express.js, and MongoDB with JWT authentication and role-based access control for students and instructors.
- Integrated Cloudinary for media storage, React Query and React Hook Form for smooth UX; developed course creation, video lessons, progress tracking, and review features.

SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, FastAPI, Redux

UI & Styling: Tailwind CSS, Bootstrap, Mantine, shadcn/ui, Storybook, Responsive Web Design

Databases & APIs: MongoDB, RESTful APIs

Tools & Platforms: Git & GitHub, Firebase, Vercel, Turborepo

Soft Skills: Problem Solving, Attention to Detail, Team Collaboration, Adaptability
